## INTRODUCTION

Plantscape Dried Mud is a geometric representation of cracks in dried mud. They bring a certain earthiness and sense of dryness but as is known, plants can still grow within. And here they do as well. The natural tones beautifully complement one another and create a fun focal point for your space.

## EXPERIENCE FRACTAL

Cracks fracture the mud as it dries. The cracks are of many different sizes and branches, yet they all speak the same crevacing language. This leaves spaces within the earth where life manages to sprout. This creates greenery over a textured landscape that maps the natural phenomenon of mud drying.

## THERMALEAF® FOLIAGE SYSTEMS

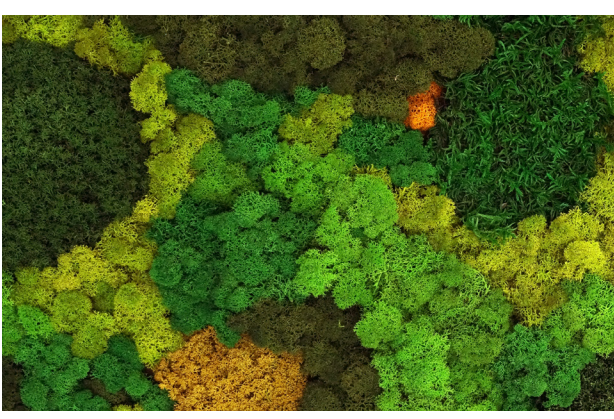

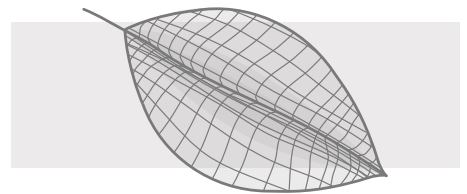

We offer foliage systems for every project and environment type, ranging from live plants to preserved options, to long-lasting replica greenery. Interior vegetation must pass strict fire codes, and ThermaLeaf® greenery ensures fire code compliance as the safest commercially available foliage - that means complete design flexibility with guaranteed feasibility.

### REPLICA GREENERY

Replica greenery is the most versatile indoor foliage system, with a massive variety of plant types that can be mixed and matched regardless of atmospheric conditions.

- ONGOING COSTS ● ○ ○ ○ ○

### PRESERVED GREENERY

Preserved greenery maintains the appearance of live plants with less ongoing maintenance. While not every plant can be preserved, certain fronds and reindeer moss remain incredibly popular choices.

- ONGOING COSTS ● ○ ○ ○ ○

### LIVE GREENERY

Live greenery has a soothing presence and invokes a greater sense of wellness and sustainability. Some conditions may limit the viability of live greenery, as it is climate-sensitive and requires ongoing care.

## SPECIFICATIONS

<b>PRODUCT ID</b>	BIO-BMW-001
<b>CONTENT</b>	ThermaLeaf® Inherently Fire Retardant Foliage, Soundcore® Recycled PET Acoustic Felt
<b>DURABILITY</b>	Impact resistant, shock absorbant
<b>WEATHERING</b>	Non-deteriorating, non-hygroscopic, colorfast
<b>MAINTENANCE</b>	Clean with vacuum or light dusting
<b>WARRANTY</b>	Comes with industry-leading standard warranty
<b>ENVIRONMENTAL</b>	LEEDv4, VOC free, 100% recyclable, non-toxic, non-allergenic, anti-microbial
<b>INSTALLATION</b>	Plantscape Installation Systems are product specific
<b>ACOUSTICS</b>	Provides acoustic dampening
<b>FLAMMABILITY</b>	ASTM E84: Class A
<b>SUSTAINABILITY</b>	Made from 60% recycled content and is 100% recyclable

## OUR MISSION

## CELEBRATE NATURE THROUGH DESIGN

For over forty-five years, our mission has been to reconnect people with the experience of the natural world. For many, opportunities to enjoy lush environments are rare, and that lack of connection can take a toll on your sense of well-being. We are leading the charge into the future of biophilic design by creating transportive green experiences within everyday environments that harmonize with the context of your space.

We continue to innovate in our industry, designing the most botanically accurate, safest, and most durable replica greenery commercially available. Our project portfolio spans 75+ countries around the world, and we remain one of the top competitors in commercial greenery.
