

# Summer Wind | Dawn

## Where light awakens form.

Dawn embodies the delicate balance of shadow and illumination. Inspired by the first breath of morning, when wind stirs the horizon and light begins to shape the world, this acoustic panel transforms contrast into a dynamic visual and functional experience.

# Summer Wind | Dawn

---

## The transcendence of first light.

---

Dawn shifts between light and shadow, where morning stirs the earth and the horizon hums with the quiet energy of anticipation. Its rhythmic surfaces capture the moment when darkness softens and morning emerges, unfolding with time, light, and air.

---

## Designing around nature.

# Summer Wind | Dawn

## Product Specifications

Product Name	Dawn
Product ID	GRD-FLD-019
Acoustics	0.95 - 1.00 NRC*
Lead Time	Lead time is dependent on project size. Contact us for more information.
Durability	Contract
Warranty	Comes with industry-leading standard warranty.
Flammability	ASTM E84: Class A
Custom	Custom colors and manufacturing services available. Additional charges and lead times may apply.
Maintenance	Vacuum occasionally to remove airborne dust or debris. Mild detergents or soaps may be used to remove stains. For detailed care instructions, refer to the <b>CSI Creative Maintenance Information</b> document.

### Custom Integrations

Product design can be customized in order to fit your design aesthetic and site conditions. Wood Grain, and Lighting integrations are also available upon request. Contact your local CSI rep about custom solutions for any Summer Wind Collection product.

## Standard Dimensions

### Optional Greenery

This unit is shown with our optional greenery, contact your local CSI Creative rep for more information on customization options.

### Custom Opportunity

Product dimensions can be manipulated in order to fit your design aesthetic and site conditions.

## Attachment Methods\*

### Above Grid Installation

- + Easy to install, adjust, and remove
- + Replaces existing mineral tiles
- + Substrate based, no hardware needed

Available methods: Drop-In

### Below Grid Installation

- + Visually obstructs metal grid structure
- + 1/4" gap between tiles

Available methods: Press-Fit

\*Not all listed attachment methods may be applicable to this product.

---

## Integrations

---

### Soundcore®

Curated with designers in mind, the Soundcore® color palette offers 43 hues tailored for commercial spaces and applications.

---

### Wood Texture + Soundcore

Mix and match Soundcore® and Soundcore® Wood Textures to stylize your design to your specifications

---

### Wood Texture

We offer 16 authentic wood textures designed to bring natural beauty and acoustic performance to your space.

### Perforation

Contact your local CSI representative about custom lighting and perforation integrations.

# Summer Wind | Dawn

## Working spaces

The wood-grain centers and solid sides evoke morning light, casting depth and defining form. It balances structure and motion, grounding and inspiring the space. Above open workplaces, Dawn's varied panels enhance acoustics.

# Summer Wind | Dawn

## Leisure spaces

In grand lobbies, Dawn signals arrival with warmth and order. Suspended above the reception desk, it frames the space with quiet elegance, guiding guests forward without urgency – inviting a smooth transition from travel to leisure.

# Summer Wind | Dawn

## Healing spaces

Dawn forms a calming canopy, diffusing light and softening sound. Its varied surfaces evoke movement, while its form provides order and tranquility. A seamless horizon overhead, it absorbs the day's energy, fostering stillness and ease.

# Summer Wind | CSI Creative

## Enjoy the Summer Wind with Our Vibrant Ceiling Solutions!

Let your designs soar with our innovative ceiling solutions, crafted to capture the essence of summer. Infuse your spaces with energy, style, and endless possibilities – all while embracing the refreshing flow of the season.

# Summer Wind | CSI Creative

The Summer Wind collection captures the invisible rhythms that shape our world – where sound, light, and air converge in motion. Each design transforms natural forces into architectural expression, evoking the warmth of sunlit wood, the sway of foliage, and the hush of a passing breeze. Together, they create spaces that feel alive: gently guiding, softly gathering, and always in flow.

## What is Acoustic Greenery ?

This new product category sits at the intersection of biophilia and acoustics, but it's more than just biophilic colors, gestures, and patterns. Acoustic Greenery brings the beauty of the natural world indoors, incorporating fully integrated greenery components into our acoustic design systems. Acoustic Greenery is defined as:

### Inherently Fire Retardant

Our greenery is made with ThermaLeaf® by Plantscape Commercial Silk, a proprietary flame-retardant technology. Injected into each plant, ThermaLeaf® eliminates the need for ongoing spray treatments or maintenance, ensuring long-lasting safety and compliance with building fire codes.

### Acoustical Absorbent

You may be familiar with the acoustic benefits of our PET and wool felt materials, but adding greenery can enhance these properties even further. Depending on its density and lushness, greenery helps attenuate sound by trapping sound waves between leaves and tendrils.

### Easy to specify

Like our other products, Acoustic Greenery can be specified within Division 09 of the CSI Master Spec, as it is seamlessly integrated into wall or ceiling designs. Contact your CSI Creative or CSILK Rep for assistance with the 3-part specification process.

# Material Specifications

## ThermaLeaf® Greenery

### Available Greenery Configurations

Jasmine, White  
Jasmine, Salmon

Sweet Bay

Silver Inch Plant

Algerian Ivy

Algerian Ivy, Variegated

Grape Ivy

Lace Ivy

Lace Ivy, Variegated

- + ASTM E84-95 Class A Fired Rated
- + Injected, non-topical treatment will not wash or wear off
- + Long lasting, consistent fire protection

Commercial Silk International's trademarked ThermaLeaf® artificial foliage is a proprietary formulation and manufacturing process whereby the fire retardants are impregnated directly into the raw materials of the foliage resulting in an inherently fire retardant "IFR" product.

# Material Specifications

## Soundcore®

<b>Material</b>	<b>Soundcore®</b>
<b>Content</b>	Recycled PET acoustic felt
<b>Weathering</b>	Colorfast, non-deteriorating, non-hygroscopic
<b>Environmental</b>	Recycled PET acoustic felt is 60% post-consumer recycled content and is 100% recyclable. Contributes points toward LEED v4. CDPH v1.2, VOC free, non-toxic, non-allergenic, anti-microbial - does not attract mold and mildew. Compliant with Living Building Challenge criteria & DECLARE Red List Free.
<b>Variation</b>	PET felt panels are created through a manufacturing process known as 'felting'. This process results in a heathered appearance. Multiple color tones may appear in the same panel. Slight color variations should be expected.
