PRODUCT GUIDE

WOOL FELT

100% organic premium design felt.

POWERFUL ACOUSTICS

High Noise Reduction Coefficient.

FIRE-SAFE

ASTM E84: Class A tested and compliant.

VOC FREE

CDPH Standard Method V1.2 School Classroom and Private Office Compliant.

CUSTOM SIZING

Custom-sized products arrive installation ready.

SUSTAINABILITY

100% organic wool is harvested without animal harm.

LOW MAINTENANCE

A light dusting is all you'll ever need.

TACTILE EXPERIENCE

Soft, plush felt delivers unbeatable touch experience.

LEAD TIME

2-4 weeks with vast color options.

SPECIFICATIONS

PRODUCT ID DVD-CRV-002

CONTENT PoshFelt® 100% organic wool design felt

DURABILITY Impact resistant, shock absorbant

WEATHERING Non-deteriorating, non-hygroscopic, colorfast

MAINTENANCE Clean with vacuum or light dusting

WARRANTY Comes with industry-leading standard warranty

ENVIRONMENTAL 100% biodegradable/compostable, contains no formaldehyde, 100% VOC free, no chemical irritants, and free of harmful substances

INSTALLATION CSI Installation Systems are product specific (see Installation page)

ACOUSTICS 0.40 NRC

FLAMMABILITY ASTM E84: Class A

INSTALLATION

Divider installation systems are designed according to site conditions, and maximize efficiency of installation.

Each solution respects the integrity of the project design, budget, and installs easily with simple tools.

DIRECT ATTACHMENT SYSTEM

Attachment solution for pre-constructed ceiling substrates with low-height limitations. Requires minimal skilled installation labor. Ideal for remodeling spaces.

INDIVIDUAL SUSPENSION SYSTEM

Attachment solution for enhanced design through suspension. Allows for optimal configuration and flow. Easily installed in post-construction phase.

SLIDING SYSTEM

Attachment system for open deck site conditions. Ideal for integration with MEP systems.

Features efficient installation via pre-designed modular configurations. Engage us in the design phase for site-specific module sizing.

SITE CONDITIONS

FIXED

Modular systems can be configured to fit site conditions when considered during the design phase. Ideal for fixed spaces to define subtle boundaries in working spaces without the need of a wall.

TRANSPARENT

Ideal for large open spaces to configure your working areas through pre-design transparency. Ideal for daylight sharing exposure.

PRIVATE

Ideal for areas associated to printing, storage, cleaning, etc. away from the visual working, social areas.

FLEXIBLE

Ideal for flexible site configuration. From large meeting layout spaces, transformed in to small footprint working areas as needed.

BASE LAYER RECYCLED PET ACOUSTIC FELT

SUSTAINABILITY

WHY WOOL?

Wool has a strong track record. As in, thousands of years strong. The first instances of wool as a textile date back to 1500 BC, and for great reason: wool is a renewable source of workable fiber, harvested without any harm to the animal.

Wool is cleaned and refined into a more cooperative felt product with an array of natural features, including wrinkle resistance, anti-static, high burning point, insulative properties, shock resistance—the list goes on.

MATERIAL CONSTRUCTION

100% organic Merino or Karakul Wool

PRODUCT CERTIFICATIONS

ASTM E84: Class A, VOC Free (CDPH Standard Method V1.2)

OUR MISSION

EXPERIENTIAL SPACES

Our goal is to create spaces that feel better.

It's easy to visualize a space with architectural acoustics, but even the most detailed renderings couldn't convey the experience of actually being there. When sound is properly controlled within a space, it creates focus and calmness that you can actually feel. We want to help you turn off the droning machinery in the back of your mind. We fabricate custom solutions that visually suit your space while building towards a more soothing holistic experience. This creates spaces where people want to be—where they want to work, where they want to sleep, exercise, create, study, and relax.
