LANAI

INTRODUCTION

The CSI Creative Earth LANAI Suspended Lattice is inspired by metal latticed frames as they offer not only a sense of privacy but also a piece of art. The grid is created with metal supports that carry the plants securely in the air. This design both grounds and elevates the ceiling. Customize your greenery and create a unique feature element for your space.

EXPERIENCE UNIFORMITY

The straight lines in a lattice represent rigidity and continuity which is important for any support structure. The repetition within the pattern helps to accentuate without distracting or overpowering.

OUR MISSION

EXPERIENTIAL SPACES

Our goal is to create spaces that feel better.

It's easy to visualize a space with architectural acoustics, but even the most detailed renderings couldn't convey the experience of actually being there. When sound is properly controlled within a space, it creates focus and calmness that you can actually feel. We want to help you turn off the droning machinery in the back of your mind. We fabricate custom solutions that visually suit your space while building towards a more soothing holistic experience. This creates spaces where people want to be – where they want to work, where they want to sleep, exercise, create, study, and relax.
