## INTRODUCTION

The Plantscape Lily Pad collection is a creative reproduction of the natural world inspired by the tropical lily pads and mossy landscapes of South America. The vibrant mixture of soft and crisp greens creates depth and dimension to any surface. The various lily pads as well as the greenery nestled within drive the eye up and down the collection inspiring a sense of movement. The arrangement of the pads is entirely customizable offering a unique display for your brand and space.

## EXPERIENCE DEPTH

Imagine the elegance of a floating lily pad across a vast body of water. The light and airy depiction of structure and flourishing life against a harsh cold line of deep waters. Each individual pod has the ability to support life and create an entirely unique ecosystem at a scale we can't usually see. But together they create a deeply connected system of support for the ethereal water lily to bloom.

## THERMALEAF® FOLIAGE SYSTEMS

We offer foliage systems for every project and environment type, ranging from live plants to preserved options, to long-lasting replica greenery. Interior vegetation must pass strict fire codes, and ThermoLeaf® greenery ensures fire code compliance as the safest commercially available foliage - that means complete design flexibility with guaranteed feasibility.

### REPLICA GREENERY

Replica greenery is the most versatile indoor foliage system, with a massive variety of plant types that can be mixed and matched regardless of atmospheric conditions.

- INITIAL COST ● ● ● ● ○
- ONGOING COSTS ● ○ ○ ○ ○

### PRESERVED GREENERY

Preserved greenery maintains the appearance of live plants with less ongoing maintenance. While not every plant can be preserved, certain fronds and reindeer moss remain incredibly popular choices.

### LIVE GREENERY

Live greenery has a soothing presence and invokes a greater sense of wellness and sustainability. Some conditions may limit the viability of live greenery, as it is climate-sensitive and requires ongoing care.

## SPECIFICATIONS

<b>PRODUCT ID</b>	BIO-BIG-001
<b>CONTENT</b>	ThermaLeaf® Inherently Fire Retardant Foliage, Soundcore® Recycled PET Acoustic Felt
<b>DURABILITY</b>	Impact resistant, shock absorbant
<b>WEATHERING</b>	Non-deteriorating, non-hygroscopic, colorfast
<b>MAINTENANCE</b>	Clean with vacuum or light dusting
<b>WARRANTY</b>	Comes with industry-leading standard warranty
<b>ENVIRONMENTAL</b>	LEEDv4, VOC free, 100% recyclable, non-toxic, non-allergenic, anti-microbial
<b>INSTALLATION</b>	Plantscape Installation Systems are product specific
<b>ACOUSTICS</b>	Provides acoustic dampening
<b>FLAMMABILITY</b>	ASTM E84: Class A
<b>SUSTAINABILITY</b>	Made from 60% recycled content and is 100% recyclable

## OUR MISSION

## CELEBRATE NATURE THROUGH DESIGN

For over forty-five years, our mission has been to reconnect people with the experience of the natural world. For many, opportunities to enjoy lush environments are rare, and that lack of connection can take a toll on your sense of well-being. We are leading the charge into the future of biophilic design by creating transportive green experiences within everyday environments that harmonize with the context of your space.

We continue to innovate in our industry, designing the most botanically accurate, safest, and most durable replica greenery commercially available. Our project portfolio spans 75+ countries around the world, and we remain one of the top competitors in commercial greenery.
