CORAL REEF

CSICREATIVE®

INTRODUCTION

The CSI Creative® Coral Reef is an ode to the underwater hero and namesake, the coral reef. The shape of the wood elements is informed by coral. The greenery surrounding the installation alludes to oceanic grasses that would typically live around the same area. The vibrant color of the green really emphasizes the delicate structure of the Coral Reef and can be modified to suit your space.

EXPERIENCE **STRUCTURE**

The branches of coral grow up and out to create an intricate structure that is strong and supported. The surrounding ecosystem then feeds off of it and helps it stay healthy in a perfect equilibrium.

CSICREATIVE®

SPECIFICATIONS

PRODUCT ID	BIO-CRF-001
CONTENT	Soundcore® Recycled PET acoustic felt, Thermaleaf® Inherently Fire Retardant Foliage, and Elements veneered Recycled PET Acoustic Felt
DURABILITY	Impact resistant, shock absorbant
WEATHERING	Non-deteriorating, non-hygroscopic, colorfast
MAINTENANCE	Clean with vacuum or light dusting
WARRANTY	Comes with industry-leading standard warranty
ENVIRONMENTAL	LEEDv4, VOC free, 100% recyclable, non-toxic, non-allergenic, anti-microbial
INSTALLATION	CSI Installation Systems are product specific (see Installation page)
ACOUSTICS	0.60 NRC
FLAMMABILITY	ASTM E84: Class A
SUSTAINABILITY	Made from 60% recycled content and is 100% recyclable

SUSTAINABILITY

RESPONSIBLE INNOVATION

We source our materials responsibly, using 100% recyclable materials. The majority of the material composition comes from post-consumer plastics, which means you're not forwarding the environmental bill to the next generation. Soundcore® is 100% VOC free (Volatile Organic Compound), which means from day one there will be zero odorous fumes, and zero air toxicity. It's also ASTM E84: Class A fire rated and offers resonant insulation to build a more comfortable environment.

MATERIAL CONSTRUCTION

60% Recycled PET acoustic fiber.

PRODUCT CERTIFICATIONS

ASTM E84: Class A, VOC Free (CDPH Standard Method V1.2)

OUR MISSION

EXPERIENTIAL SPACES

Our goal is to create spaces that feel better. It's easy to visualize a space with architectural acoustics, but even the most detailed renderings couldn't convey the experience of actually being there. When sound is properly controlled within a space, it creates focus and calmness that you can actually feel. We want to help you turn off the droning machinery in the back of your mind. We fabricate custom solutions that visually suit your space while building towards a more soothing holistic experience. This creates spaces where people want to be—where they want to work, where they want to sleep, exercise, create, study, and relax.
