BARN WOOD

INTRODUCTION

Barn Wood from the Experiential collection creates a lovely backdrop for your space. The smooth texture and sound dampening abilities remove the burdens of real wood but keep the warm and cozy benefits. The classic design of Barn Wood brings a sense of warmth and comfort unlike any other.

OUR MISSION

EXPERIENTIAL SPACES

Our goal is to create spaces that feel better.

It's easy to visualize a space with architectural acoustics, but even the most detailed renderings couldn't convey the experience of actually being there. When sound is properly controlled within a space, it creates focus and calmness that you can actually feel. We want to help you turn off the droning machinery in the back of your mind. We fabricate custom solutions that visually suit your space while building towards a more soothing holistic experience. This creates spaces where people want to be – where they want to work, where they want to sleep, exercise, create, study, and relax.
