EXPERIENCE REACH

The stars that line the sky are too vast to count and too stunning to ignore. The seemingly random and messy pattern actually creates a calming and beautiful backdrop for your space. Customize your felt and create an entirely new experience.

OUR MISSION

EXPERIENTIAL SPACES

Our goal is to create spaces that feel better.

It's easy to visualize a space with architectural acoustics, but even the most detailed renderings couldn't convey the experience of actually being there. When sound is properly controlled within a space, it creates focus and calmness that you can actually feel. We want to help you turn off the droning machinery in the back of your mind. We fabricate custom solutions that visually suit your space while building towards a more soothing holistic experience. This creates spaces where people want to be – where they want to work, where they want to sleep, exercise, create, study, and relax.
