

GREEN SKYMARK

BIO-SKY-001

GREEN SKYMARK

INTRODUCTION

The Plantscape® Green Skymark is a customized set of geometric hanging planters in the Baffle product family. The Green Skymark adds floating bubbly life to your space in addition to a focal point that both directs and calms at the same time. Customize the baffles to suit your space and level of biophilic integration.

EXPERIENCE LUSH

The rich and luscious greenery that grows across harsh edges softens and animates in a way that only life could. Feel transported to another world where nature and discipline meet thin air and create a sophisticated and comforting experience.

OUR MISSION

EXPERIENTIAL SPACES

Our goal is to create spaces that feel better.

It's easy to visualize a space with architectural acoustics, but even the most detailed renderings couldn't convey the experience of actually being there. When sound is properly controlled within a space, it creates focus and calmness that you can actually feel. We want to help you turn off the droning machinery in the back of your mind. We fabricate custom solutions that visually suit your space while building towards a more soothing holistic experience. This creates spaces where people want to be—where they want to work, where they want to sleep, exercise, create, study, and relax.
